Class Name: Swansea Term: Autumn 1 2019 Topic: Colours

What we have been learning this term:

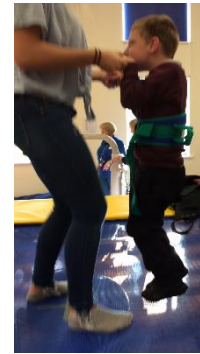

So term one is nearly over and what a fun and jam packed term it has been! In true Swansea style we have jumped straight in and kept ourselves busy. Term one has brought us some new faces who have settled in so nicely and enjoyed getting to know the children.

Term 1 we have focused on our new topic of colours and what a lovely topic it has been. We have had colour themed songs in 'Bag Around the Circle', a sensory story on colours and art has just been amazing! We have been exploring all our different mediums, most of which very creative and however Anne manages to come up with them I don't know. These have included ice pop painting, spaghetti painting and elastic band painting, as well as many others. As you will have seen on tapestry we have used our masterpieces in class to create our new display which we are hugely proud of.

One of our other big focuses in class this term has been physio and rebound, as we are starting how we mean to go on. Every single one of the children have exceeded our expectations in physio for term 1, and we couldn't be prouder. Having a physio join us for rebound at points this term has been so useful as we have been able to draw up some plans and aims for the children when doing rebound. Not only are the children still absolutely loving it, but it has now helped to facilitate so much progress in their physio. The children are so motivated by being on the trampoline and it has given us new techniques off the trampoline as well. The children's standing has blown us away, as we know it has you too, and we can't wait to see more of it!

This term has been so much fun for all and surprised us in many ways. We hope you all have a lovely well-earned break and cannot wait to see what term 2 brings us 😊

Some photos of us!

Dates & Points to remember:

Monday 4th November – First day back

Friday 29th November – Inset Day

Monday 2nd December – Christmas performance

Friday 20th December – Last day of term
