Class Name: Wallingford

Term : Autumn 1

2019

What we have been learning

A cracking start to the year for new Wallingford class. This term is about settling, working together and creating an amazing team!

At the start of the year we took on a gardening project that included sorting, fixing and painting parts of our outdoor area. We have created a small pond area in a bid to increase biodiversity in the local area. As well as this, we have created feeders and fat balls to bring in a great deal of different birds right outside our window! We have all contributed to making new bunting and we are still yet to paint our furniture! Above all it has been a great opportunity to bond and work together as a team to create something nice that we can enjoy further into the year.

Shopping and cooking have gone hand in hand on a Tuesday. A great chance to be out in the community whatever the weather. This term we have focused on value and price during our price comparison challenge! A great deal of focus from our students that has allowed them make the choices that make the biggest difference to their budgets!

Our smaller Tuesday group have been visiting the farm each week. Getting involved in day to day work and maintenance of the farm. It has been a great opportunity and great fun for our group.

Work experience has started for a few of our students this term and we've had such positive contributions so far this year. Although I am new to teaching this class, I am already seriously impressed with how hard we have all worked over the term!

Everyone has worked hard this term and we look forward to welcoming back Wallingford for an exciting term ahead.

Have a good break!

Wallingford Class team 😊

Some photos of our fantastic work this half term.

Dates & Points to remember :

Friday 25th October – Last day of term

Monday 4th October – First day back

Friday 29th November – Inset Day
