

Classroom News

Class Name: Flint

Term: Spring 1

2020

What we have been learning this term:

It's been a short but busy term!

For the past three Fridays, we have set up a café in Flint class. We have opened it up to the other students and staff at Post-16 and we have had lots of positive feedback! The students have taken on a variety of different roles within our café. These range from seating customers, taking orders from customers, making an assortment of drinks, baking cakes and making the classroom into a café environment. It has been brilliant to see the students take ownership over the café and offer something a little bit different during a school week.

In English, some of the students have covered topics around the use of the internet and had some really insightful conversation around some difficult subjects. Other students have looked at instructions and the importance of writing clear and concise points.

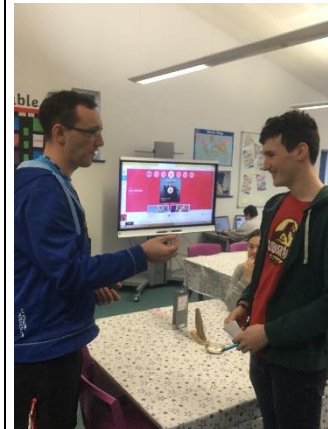

In Maths, a group of students have been exploring fractions and percentages in the real world. They looked at how they are used for discounts and savings and how they may attract customers to shop for certain goods. Other students have looked at the concept of time and when an understanding of time is vital outside of a lesson.

In other news, the class had two visits from Kieron's newborn twins - Kit and Ollie. Quite a few of the students held the babies (and were quite comfortable too) and were communicating really well with regards to asking life skills related baby questions!

Have a wonderful week off!
