Class Name: Pendragon Term : Summer 2 2021 Theme: Minibeasts

What we have been learning:

We have had a great half term that has gone so quickly. Our theme has still been minibeasts and we have used this as a bases for our English descriptive work, some games that we have played and looking at habitats in Science. Renee has done lots of creative work with them in Art and we have taken our creativity into the woodland area where we have made clay faces for the trees, created our names out of natural material and had a go at making birds' nests. This was so tricky! We have enjoyed making different dishes in cooking and worked hard to create different cakes to sell. As you can see in the photo, there was not a lot left by the time Jon came to buy his.

We have enjoyed playing games in PE using the scooter boards and these skill we took out on to the sports field for sports day, where everyone performed brilliantly. Despite all this fun we have worked hard in our Maths and English lessons. We have especially enjoyed our guided reading sessions where we have been sharing books about minibeasts and working on our comprehension skills. We have also enjoyed regular visits to the library where we have been learning to check books in and out using the new computer system. In PSHE we have been thinking about looking after ourselves. This included eating healthy, exercise, relaxation, jobs that people do (thank you to those who sent photos in, they were popular for all to see and have been on display in the classroom) and money; hence the cake sell. I have run out of space!

I must say, the Pendragon staff team have really enjoyed their time and I think we are all sad to be moving on. Have a great summer break and good luck on new adventures in September.

The Pendragon Team. xxx

Some photos of our learning

Dates to remember:

Last day of term is Tuesday 20th July 2021

School starts back on Friday 3rd September 2021
