

# Classroom News

Class Name: Flint

Term: Summer 1

2021

## What we have been learning this term:

Another 6 weeks have been and gone in a flash in Flint Class!

We have spent several weeks exploring Pop Art and what it looked like. The students then created their own onomatopoeia style cartoon word.

As well as this, the class took part in some more creative activities that challenged them to think outside the box. One afternoon, they had to try to create a boat (that was made out materials found in the classroom) that could float on water for an extended period of time. There was definitely some imaginative ideas! In addition to this, they spent an afternoon creating a crazy golf course with focus on using everyday items to form obstacles.

We have continued to read the book "OrangeBoy" and covered many themes that teenagers may face in this country. We have almost made it to the grand finale to find out what will happen to Marlon!

Every Monday morning, the class have continued to develop their cooking skills with some delicious meals being made! The focus this term has been around greater independence in the kitchen and also communication with others who may be working around you in the same work space.

Have a great half term and let's hope for less rain!
