

# Classroom News

Class Name: Conway

Term : Autumn Term 1 2020

## What we have been learning:

We have had an amazing start to our new year. All of the children have settled back into school (and new classes for some of us) really well.

We have spent lots of time outdoors exploring, learning about and discovering different textures, such as the fake grass, water play, messy play outdoors, sand, and so on!

Conway have all taken part in Attention Autism (bucket time) which has really helped us to focus and get ready for the day ahead.

Our sensory story this term has been 'The Little Red Hen', which everyone has loved- especially pressing the switches to make the different animal noises.

### **Magic Moments**

In the afternoon, we have relaxation on the board, with fiddle toys. The children have really got used to taking this time to relax after playtime, and communicate either by exchanging or tapping the picture of the fiddle toy they want- a lovely moment at the beginning of each afternoon.

HandyPac has been a huge hit in Conway class. We have seen some lovely 1:1 interaction and communication between students and adults. Well done everyone!

Have a lovely half term! 😊
