

14-19 Curriculum Overview

Our focus in 14-19 is to ensure we create bespoke study programmes for our students so they can gain the skills and qualifications needed to take them on to the next step.

We pride ourselves on creating a bespoke programme for each student which comes under three pathways. As the students develop, their pathway is not always set in stone and the approach below provides us with the flexibility needed to adapt as the student grows and develops in their preparation for adulthood journey.
