

Classroom News

Class Name: Wallingford

Term: Spring 2

What we have been learning this term:

Some photos of us!

It has been lovely to welcome all students back this term in Wallingford. We have continued learning and discussing national news and sharing our thoughts and feelings about the pandemic. Our experiences on staying at home and vaccinations have given a great insight for others. Our students our helping each other as a wonderful team.

This term we have continued with regular cooking sessions. Focus, teamwork, independence skills and communication have led us to cook chili, stir fry, hot pot and pasta bake. Our reading skills have been put the test in these recipes and it has been fantastic to see the end products!

Recently we have started our garden and maintenance project at Post 16. We're on a mission to tidy and reinvigorate the outdoor spaces. So far we have built a raised bed from a pallet, sown seeds in the greenhouse, raked and placed lawn seed, tidied leaves, weeded beds ready for outdoor sowing, cut back growth, painted new and old wooden furniture, stained benches... We will continue our work into the spring

We are all so pleased with Wallingford students and the team are looking forward to welcoming them back for a busy and exciting term after Easter!

We wish you a pleasant holiday break
