

# Classroom News

Class Name: Tiverton Term: Spring 2

Topic: Spring and New Beginnings

## What we have been learning this term:

## Some photos of us!

We have been so happy to welcome everyone back into school. The class have come back in and ready to learn and this has been absolutely amazing to see.

In English we have been looking at story writing and the aspects of what makes a good story. This has included writing a good story grabber at the beginning, including similes and adjectives and thinking about the characters and settings in books. The class have then moved onto beginning to write and illustrate their own story. We are really excited to see how these are developing and are looking forward to reading the finished novels.

In Maths we have focused on 2D and 3D shapes, looking at their properties, right angles, lines of symmetry and even had a go at making dough to make the shapes. On a Friday morning the class split in half. Half the class cook and the other half have been focusing on addition and subtraction. After break the groups swap over and the second maths group are focusing in the times tables.

In Science we have many experiments around the room all around growing. We are growing bean plants in bags, growing carrots from the tops, planted many flowers by removing the variables required for growing to observe the outcome.

We also enjoyed a Science Day, where the class were able to take part in a range of science experiments in class.
