

Classroom News

Class Name: Blaise

Term: Autumn 1 2022-2023

Topic: 4 Seasons

What we have been learning this term:

What a wonderful start we have had to term one of 2022!

This term – as we have had such an unusually hot summer, we thought we would explore the 4 seasons to ready us for the weather changes we will see and feel during this new school year.

Our story has lead us through the different weather types we might experience and the various hats we might wear to protect ourselves. We have also been thinking about how the trees change throughout the seasons and have decorated some using various printing methods in art as well as exploring real-life items linked to each such as apples, crunchy autumn leaves and sweet smelling blossom.

As we all returned to the same class this year we were able to kick start our individual targets meaning everyone has already shown some fantastic progress. We have seen some wonderful sitting, crawling, standing, stepping, reading, communicating and general engagement which have earned us lots of stars!

We also have a new wheelchair swing which everyone has had the opportunity to use to help with our proprioceptive sense.

The reintroduction of Drama has been a real highlight this term. Anna has worked so hard to bring the components of Autumn to life for us through music and the immersive elements brought by the various wind types.

We have also been exploring various sweet foods by making spring nests and spooky ghosts.

Obviously, we had to mark the sad news of the Queen's death. We were all fascinated by the procession of horses and soldiers on the television. We then chose colours to mix to make puffy paint and created posters of her majesty to display in our corridor.

Some photos of us!

Dates & Points to remember:

- End of term: 21st October
- Start of term 3: 31st October
