Class Name: Pembroke **Term:** 1 2024-2025

Topic: Funny Faces and Fabulous Features

What we have been doing this term:

Wow what a fabulous first term we have had! The children have all settled well into Pembroke class forming good relationships with staff and children, some of which have been new to the class and even the school!

Throughout this term, we have not only been exploring our theme of 'Funny faces and fabulous features' but also engaging with each other and building our communication needs.

Pembroke have enjoyed making the most of our large playground forming pro-social relationships with each other and also children from other classes. They have played and explored the slide, roundabout and swings. Over the next few terms we will work towards visiting some local parks where we can enjoy a much wider range of equipment and have experiences out in the community. Attention Autism Bucket has been an absolute highlight in Pembroke class with children taking turns beautifully to get to stage 4 and often create some wonderful art creations.

In Phonics this term, children have loved meeting Dana dinosaur and increasing their phonics and communication. We have also loved reading books and exploring sensory stories.

Visits from Charles every Wednesday has also been a firm highlight for all of the children and staff. Children have experienced listening and playing different instruments. Whist also having the opportunity to take part in call and response to copy a beat- some of which have been quite lengthy- yet the children have been successful.

Finally, we have begun our sessions in the hydrotherapy pool which have allowed some children to show off their skillsets- everyone will get a turn over the course of the year!

Some photos of us!

Dates & Points to remember:

Last day of term: Friday 25th October 2024

First day back: Monday 4th November 2024
