

# Classroom News

Class Name: Lincoln

Term 2 2025-2026

## What we have been doing this term:

This term, we've been diving into Algebra, focusing on understanding and solving equations. Students have worked hard to develop problem-solving strategies and apply them to real-life scenarios. Their perseverance has been impressive!

Our cooking sessions have been a real highlight! Students have prepared a variety of delicious dishes inspired by family favourites. Some of the tasty creations include tomato spaghetti and apple & pear crumble. These sessions have not only built practical skills but also encouraged teamwork and creativity in the kitchen.

In Science, we've been exploring ecosystems. Lincoln class particularly enjoyed bringing their ideas to life by creating their own ecosystems through junk modelling. From rainforests to deserts, the creativity and attention to detail were amazing!

We've also spent time thinking about ourselves, our strengths, and interests, and how these relate to future careers. Students have reflected on what makes them unique and how these qualities can shape their ambitions. It's been an exciting journey of self-discovery for everyone.

This term has been filled with exciting learning opportunities, creativity, and personal growth. We're so proud of all that Lincoln have accomplished and are looking forward to even more amazing achievements in the coming term!

**Have a great half term and a great Christmas!**

**The Lincoln Team**

**Gabs, Lauren, Kirsty, Jonny, Linda and Denise.**
