Class Name: Pendennis Term : Spring 1 2023 Theme: Machines

What we have been learning:

Hello all,

We have had a pretty hectic term trying lots of new things. Firstly, many more of us have started going to the hydro pool for water confidence and physio.

We had some lovely ladies come in and talk to us about trains, how to be safe and how to buy tickets. They then took us on a train ride, which was great fun. We are planning to do more of these.

This term some of us have started going to the shop to buy the ingredients for our cooking on Mondays. As you know, that has been pizza. We have been making them from scratch and have been building on our skills and being more independent as each week goes by.

We have taken a trip to Costa as a class and again hope to do more of this.

Despite all of this, we are still working hard on our Maths, English and communication skills. We have been practicing using our different forms of communication in different environments and when out in the community.

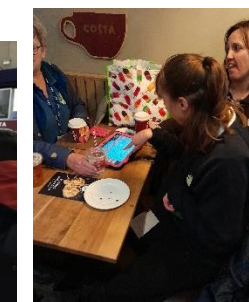

We have also been focusing on our wellbeing and have been discussing feeling worried. We have been trying out things that may help us take our minds of worrying, like relaxing painting. One of our afternoon topics has been history and we have been exploring old and new toys. Looking at what makes them different, sorting them and of course playing with them. My spinning top was so old it would not work and had to go in the bin!

If all that doesn't sound busy enough, we also fit in music, drama, choir for some, rebound for some, art, geography, PSHE, playing games...

Have a great half term break,

The Pendennis Team.

Some photos of our learning

Dates to remember

Last day of term is Friday 10th February 2023

School starts back on Monday 20th February 2023
