Class Name: Danby Term: Spring Term 3 2024-2025

Topic: Reduce, Reuse, Recycle

## What we have been doing this term:

This has been an exciting term in Danby Class! We have been reading books about our topic and writing about the stories. We sequenced the events in the stories, and created a character map describing the traits of one of the story characters.

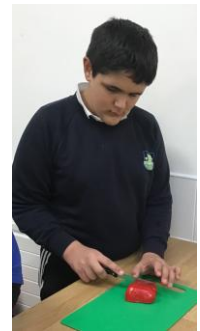

Danby class has been learning about recycling and the harmful effects plastic has on our earth. We discussed the large areas of plastic in the oceans, and created a paper mache globe to go along with our topic.

In maths we looked at patterns, sorting by trait, estimating, and counting/recording data on a graph. We also practiced weighing classroom items using balance scales, and determined which items was the heaviest.

Danby celebrated Chinese New Year and made stir fry and egg fried rice. Also in cooking this term we made jam tarts, sausage rolls, and meringue. The meringue seemed to be everyone's favourite! Danby class began taking weekly trips to Tesco this term. We alternate weeks so everyone has a chance to go.

It has been a busy term, and we look forward to another great term after the February holidays!

## Some photos of us!

## Dates & Points to remember:

Last day of term: 14<sup>th</sup> February 2025

First day back: 24<sup>th</sup> February 2025

24 March Winchester Science Museum
