Class Name: Pembroke Term : Term 4 2023-2024

What we have been learning:

Our topic this term has been 'Puddles and Rainbows'. We have been exploring the different types of weather and thinking about the clothes that we might wear. We also practiced putting the different items of clothing on for the weather.

On Tuesdays we have managed to experience lots of different kinds of weather as we continue to spend some time in Secondary Playground. The students are getting more confident to explore different parts of the school.

In English we have been talking about our favourite weather and why. We've also been writing and mark making about our favourite weather. We've also been practising writing our names for the cards we have sent home for you on Mother's Day and Valentine's Day – we hope you liked them!

We've been working really hard on our fine motor skills this term.

In Maths we have focused on counting and thinking about 1 more. We are trying hard to touch the object that we are counting and saying the number before touching the next object.

On World Book Day, Tiverton Class came to see us with a book that they had each chosen for us from the library. We really enjoyed listening to our stories. They also performed a sensory story for us which we loved joining in with!

Dates to remember:

Thursday 28th March – Last Day of Term

Monday 15th April – Summer Term Starts

Some photos of our learning
