Class Name: Chillingham

Term: Summer 1

What we have been learning this term:

Some photos of us!

In English this term, we have been looking at animals and listening to the different sounds that the animals make. The children have been matching sounds to animals and producing sentences starting with "I hear". It has been lovely to watch the children listen attentively and show what they are learning.

In Maths, we have been learning about patterns and shape. The children have been looking at and working with repeated patterns and the properties of shapes. This learning has also been supported by exploring pattern and shape during bucket time.

In life lessons, our focus has been working on *people who help us*. The pupils have been looking at a growing list of jobs and roles including police, doctor and teacher. The pupils have been given the chance to choose who helps them.

In cooking, we have been making fried eggs by following a set of instructions. Eggs have also reappeared in bucket-time. The pupils have been exploring a wide range of foods through touch, taste, smell and sight. They have also used a picture to generate some writing.

Dates & Points to remember:

Monday 6th June – First Day of Term 6

Friday 15th July – Last Day of Term 6
