Class Name: Carisbrooke Term: Summer 1

Topic: Journeys Past and Present

What we have been learning this term:

English: We have immersed in our book 'Journey' that has no pictures. We became part of an imaginary world, creating our own stories that had a beginning, middle and end.

Maths: We have continued in our maths groups, with a focus on measure, to include, length, capacity, mass and time. Did you know a baby giraffe could get through our door!

History: Totnes joined us for history to find out about significant explorers to include Matthew Henson a black explorer, who reportedly was the first to reach the North Pole, but did not get the recognition until 40 years after his death.

Life Lessons: This term we have used the NSPCC scheme of work to learn about different forms of abuse, through different characters. We know the importance of Speaking Out to Stay Safe.

Science: In science we have looked at different materials and their properties, investigating whether they bend, squash and stretch.

Cooking: We are now the masters of snacks and have enjoyed making smoothies, milk shakes, dips, sandwiches and fruit kebabs. YUM!

Time now to our star moments from Carisbrooke:

Charlie: We have been so impressed with your maturity in our Life Lessons, being able to explain about good and bad touch.

Layna: We think you have especially enjoyed cooking this term, trying all the different fruits, being very brave trying different things to include green smoothie with spinach!

Selina: All we can say is WOW! You are a true asset to Carisbrooke. Your contributions have been amazing and you are such a caring young lady ☺

Jonny: It has been wonderful to see your contributions in English, where you helped to write the 'Journey' story with a kangaroo and crown.

Katie: Thank you for sharing when it is too noisy, reminding your friends. However, I do believe you have the loudest voice in Karaoke Club!

William: Who knew you were such a good chef. It has been wonderful to see your culinary skills. You are quite the expert peeler ☺

Luke: You have shone this term in maths. You were able to estimate length, telling us whether we would use metres or centimetres and what we would use to measure,

Alfie: You have really enjoyed choir this term and it has been wonderful to see you chatting with your Post-16 friends

Ollie: It has been so beautiful to see you sharing your trains at lunchtime and letting others play with them.

Some photos of us!

Dates & Points to remember:

Monday June 5th - First day of Term 6

Monday 19th and Tuesday 20th June - Parent Consultations

Tuesday 20th June - School Photographs

Thursday 22nd June - Secondary Sports Day

Saturday 24th June - Castle Fest '23' (12pm-3pm)

Thursday 6th July - School Prom (Year 11's)

Wednesday 19th July - End of Term 6
