Class Name: Lulworth

Term: Term 5 2022-2023

What we have been learning this term:

Some photos of us!

Lulworth have been enjoying the spring sunshine getting out and about, able to use the new gym equipment in the park alongside friends as well as making lots of trips within the local community.

At Earth Trust we visited the weir and learned about how and why the current of the Thames is controlled. Students also had the opportunity to dig at their archaeological site where they found flint, animal bones, including a horse's jaw and pieces of Roman pottery and tiles. We are always on the lookout for more fine feathers to add to the collection!

Students were delighted to meet Tilly a new black lamb at Smelly Wellies. Lulworth have continued to help look after all the animals and are loving watching the lambs grow up fast. One day, Boris the Alpaca will let us actually pat him. The students are persevering in getting closer slowly but surely every time they visit.

In cookery, students made hedgehog bread rolls, healthy salads as well as making and sharing pancakes and preparing a feast fit for a king with scones, sandwiches and festive cakes to celebrate the coronation.

Students continue to use equipment to support work on place value in maths and have learned about contact and non-contact forces in science and how they effect the speed, direction and shape of an object. They have considered how we express ourselves through Art and have also explored the weather, learning about clouds, storms and the water cycle.

Have a fabulous half term holiday.

Lulworth Team

Dates & Points to remember:

Last day of term: 26th May
First day back: 5th June

Castle Fest: Saturday 24th June
