

# Classroom News

Class Name: Chillingham

Term: Term 5 2022-2023

Topic: Superheroes

## What we have been doing this term:

This term, Chillingham class have been enjoying the sunnier weather and have been doing lots of outside **sensory play**!

We have enjoyed splashing in the water, crunching rice crispies and throwing sand up in the air and watching it fall.

In **English**, we have been watching and listening to a song called 'It's a farmer's life for me' and have tried some new foods and drinks which we saw in the video, like milk and berries.

In **Maths**, we have been counting superheroes – we love watching them fall over when we have finished counting them! We have also been practicing recognising and writing numbers.

In **food tasting**, we have tried lots of new foods, including jelly, custard, bananas, peach slices and smoothies – many of us don't like new foods but we have done our best with smelling, touching and sometimes tasting foods which we are not used to.

### Magic moments

**Curtis** – you have done so well in food tasting, trying different foods which you have enjoyed and you are now having in your daily lunch box!

**Tom** – you sat on your chair and joined in with circle time for just over 5 minutes whilst listening to our English song and tasting dairy free milk and berries!

**Rocco** – you have shown us how well you can use a pencil to trace over numbers 1-3 independently!

**Marley** – you played so nicely with your friends around the sensory trays outside, it was lovely watching you all together!

**Eric** – you have been walking to and from your bus independently at the start and end of the day!

**Vishnu** – you have been working hard at your work station, learning to spell new words and adding two numbers together!

**Amelia** – Amelia has done really well using her more switch during rebound therapy to ask for more bouncing!

## Some photos of us!

## Dates & Points to remember:

Last day of term: 26<sup>th</sup> May

First day back: 5<sup>th</sup> June
