

# Classroom News

Class Name: Arundel

Term 5 2024-2025

## What we have been doing this term:

We've had a wonderful term in Arundel Class!

Our mornings continue to begin with connection time. We have really enjoyed playing the island game – students have taken turns to lead, deciding on a rule for everyone else to work out.

In maths, we finished our unit on negative numbers, learning how to use them with the four operations. We have moved onto learning about co-ordinates, ahead of our shapes unit next term.

In English, we have been focussing on comprehension, revising the roles of the Forensic Scientist and Detective Inspector to support our learning in extracting evidence and making inferences.

In science, we have furthered our learning about forces, applying it to exploring space, orbits and the solar system.

In Inside&Out, we have developed our Zones of Regulation learning, exploring our regulation tools for each of the different Zones.

Students have continued to enjoy their offsite visits this term, with some students visiting Smelly Wellies and sailing for the first time. It is so lovely to hear about their time offsite when they arrive back at school!

We wish you all a very happy and safe half term.

Alicia, Jordan, Kelly, Kirsty and Lauren P
