Class Name:

Term: Summer 2

Topic:

What we have been learning this term:

Wow, where did that term go. We can't believe the summer holidays are nearly here. Conway has managed to squeeze in lots of new experiences and continued with some old favourites.

In our Art sessions we used the book "only one you" as our inspiration for the display board. All the fish are made by using various painting and mark-making techniques (ice paint- lollies, bubble wrap, ball rolling, sponge painting) Thank you Charlie and Jim for writing the quotes great job.

Conway went down a sensory path during messy play a great time was had by all. Lexie couldn't get past the saw dust and was covered by the time the session ended. I can't think why Bobby goes home so dirty he throws himself into all the experiences as you can see by the picture of him standing in the soil tray. We can't ignore the water play session. Conway, Pembroke and Cardiff got together and experienced lots of different water based activities. Unfortunately some staff got carried away and everyone ended up soaking wet ☺.

Our sensory story was topic based and called "My Body". We learnt about how our body functions. Rocco made a great doctor with his white coat and stethoscope.

Snack shop has continued this term and Lili is adept to sorting her coins and has worked out how to retrieve them and do it all again. Taksheel has been showing off in phonics and not only pointing to the animals he can hear but verbalising the correct animal. So proud of you Taksheel.

Have a lovely summer and see you all in September! ☺

Some photos of us!

Dates & Points to remember:

Primary family fun day 12th July.
Last day of term 15th July
Return to school 5th September.
