Plympton Class

What we have been learning this term

Photos of our learning

It is very hot...

But that has not put us off our busy weeks in Plympton!

We have continued to take advantage of the fair weather and have continued our trips into the community, working on money, choice, new places and transitions.

We have also continued our music sessions into this term, practising songs for the Post 16 Festival Day!

We also celebrated our Jubilee after half term with several parties for our students.

In cooking this half term we have practised making our own photo booklets, highlighting each stage of the recipe.

It has been a very full on year and in reflection it is great to see the achievements of Plympton Class.

We hope you all have a good summer break,

Plympton class Team

Plympton's WOW moments

Louise getting stuck in and getting her hands dirty in cooking. It is all about the process and what a super effort she has put in!

Oliver has continued to practise his money in an array of different contexts. Coins, card, class work or in the shops! Building up that confidence!

Cameron Using his timetable through the day and the week to support what is happening. Every day you look through this and refer back with staff!

Philip has been brilliant in all of our offsite trips into the community this term. Shops, parks, farms, you name it. A model student!
