Class Name: Pendennis Term : Summer 2 2022 Theme: Stone Age

What we have been learning:

Some photos of our learning

Hello Everyone,

Wow, this half term has really flown by and it has been a busy one. Our topic has been the stone age and we have woven this into many aspects of our day. We turned a very large box into a cave and created cave paintings to decorate the inside with as well as decorating the outside. We listened to a story over the weeks about the stone age to find out what they ate and how they lived. In cooking one week we made vegetable soup, not quite like the stone age people as we had an oven, not hot rocks, but hopefully the idea was there. We have made homes out of sticks and material and enjoyed making rafts with sticks and floating them as part of our science. We certainly enjoyed sending our rafts down a drainpipe and into the water!

Of course, we haven't neglected our Maths and English. In Maths we have been looking at different types of measurement and working out how long, tall and heavy items are. In English we have been focusing on sentence construction using colourful semantics and including positional language. We have continued our reading and phonics work in the mornings too. We have loved playing glockenspiels in music, transferring those skills to the keyboard and had a musical day out in Victoria Park at the band stand. That was the last of our trips out this term, which has included shopping trips to Waitrose. Sports day was a great success. We enjoyed all the circuit activities in the morning before competing in the running races in the afternoon. There was some great running from everyone in Pendennis.

I think everyone is ready for a restful few weeks over the summer, ready to start again in the September. Have a great time!

The Pendennis Team.

Dates to remember

Last day of term is Friday 16th July 2022

School starts back on Monday 5th September 2022
