

Classroom News

Class Name: Conway

Term: Term 6 2022-2023

Topic: People who Help Us.

What we have been doing this term:

Maths

In maths we have been focusing on common 2d shapes. We've enjoyed a range of activities which have given us the opportunity to explore shape and how we can use them to create pictures, join them together to make new shapes and recognise them in our everyday environment.

English/Topic

We have been lucky enough to have visits from firefighters and police officers! We have been learning basic vocabulary and Makaton such as 'fire truck', firefighter, doctor etc. We have used this language in cross curricular activities such as making fire engine pictures from 2d shapes and decorating police cars with coloured squares. As always, we have been working on our Colourful Semantics and linking the sentences to our everyday heroes. Some of us have even been labelling part of an emergency vehicle!!

Sports Day

We have been spending some time on transitioning to the secondary field in preparation for our sport's day. The morning was a huge success and we all had so much fun. Thank you so much Averil for organising such a great event!

Adventure

During Adventure Time we've had lots of messy play. We've had a sensory walk, sea life tray, bug hotel with real plants and so much more!

Everyone in Conway Class wishes you a lovely summer break. ☺

Some photos of us!

Dates & Points to remember:

Last day of term: Wednesday 19th July at 3pm.
First day back: Wednesday 6th September.
