

# Classroom News

Class Name: Arundel

Term 6 2024-2025

## What we have been doing this term:

What an incredible year we have had in Arundel Class!

In English this term, we have applied our organisation, planning and creativity into creating a picture book. We have learned about alliteration, rhythm & rhyme and similes & metaphors. We have analysed front covers and blurbs, considering the target audience. And we have put all of this together to write and illustrate our own picture books.

It's been a term of shapes & measures in maths. We have learned about properties of 2-D shapes and are beginning to apply this to calculating perimeter and area of compound shapes.

We have really enjoyed learning about circuits in science. We have learned about circuit models, components and how to use the equipment safely.

In PSHE, we have had mature discussions about how our body and brain changes during puberty. We applied our learning about Zones of Regulation and how this will support us as our hormones and emotions change.

We have continued to enjoy our offsite visits to Smelly Wellies, sailing, climbing and parkour. It was lovely to join the whole school at the bandstand extravaganza and see familiar adults and peers.

It's hard to believe we have such little time left until the end of Year 7. Everyone has worked so hard and it has been wonderful to watch everyone's progress and development.

We wish you a happy and safe summer holiday.

Alicia, Kelly, Kirsty and Jordan 😊
