Class Name: Conisbrough

Term: 6 2025-2026

Our local Community

What we have been learning this term:

It has been such an amazing year in Conisbrough class and it has been so lovely to reflect upon the progress that we have made.

Our students have been busy sitting their Functional Skills exams for both Maths and English. It has been such a delight to see so many of them achieve their level 1s or their entry levels. It makes us so excited to see what is still to come within their futures!

They have also been working hard on assignments for other subjects. In World of Work, we have been looking further at job applications & interview skills. In Maths, we have been exploring data skills to our own individual functional skills levels. In PGW, we looked at social wellbeing and how we can manage both our own and others. In Science, we have been introduced to chemistry after wrapping up our unit on circuits and measuring resistance.

Cooking has been a lot of fun! We have baked cakes & made our own smash burgers. It has definitely been a highlight for a lot of our students, who have been growing their independence in the kitchen. DT remains another highlight for most, where students have enjoyed working on their gardening and drawing skills with B in the workshop.

I would also like to wish all of our leavers the very best of luck in their next steps! It has been a pleasure to teach Conisbrough class this year and hope you all have a lovely summer break.

Some photos of us!

Dates & Points to remember:

Last day of term: Tuesday July 22nd, 2026

First day back: Thursday September 3rd, 2026
