Class Name: DT workshop

Term 1 2024-2025

What we have been doing this term:

Some photos of us!

This term we have all been enjoying the new DT workshop at the Castle@Theale.

I have truly been blown away by the student's skills, talents and creativity but most of all by everyone's curiosity and readiness to learn.

We designed our own workshop aprons, made infinity cubes, painted self-portraits and made a brilliant start with woodwork by learning how to use a variety of handheld tools.

I am very excited about the next term and can't wait to see the students' wonderful and unique creations.
