

Latest gardening update from Theale!

What is this?!

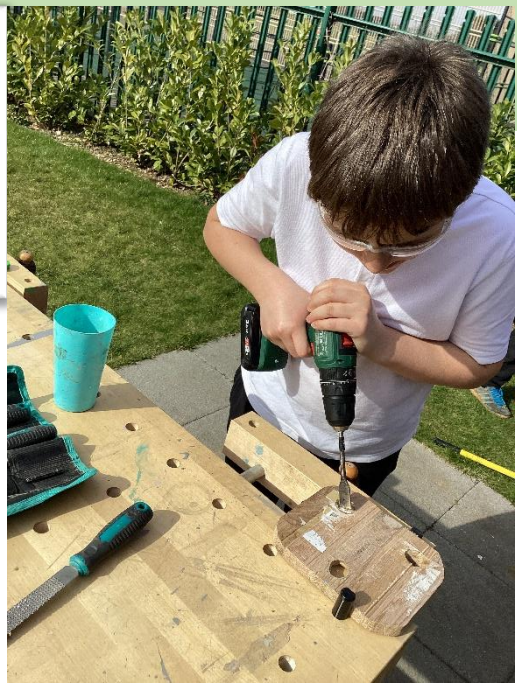

(watch this space and you will soon find out!)

We have been weeding and raking every day in the last weeks here in our school garden, preparing the soil in our raised beds for planting flowers, fruit and vegetable.

Any cuttings, plant and seed donations are very welcome!

Sarah from **Earth Trust** visited us to help with our projects.

Thanks to the supply of pallets from R&M Lighting in Theale, we have been able to create sustainable planters and more garden furniture from recycled wood.
