

# We have received the Level 1 Gardening Award from the RHS!

WELL DONE! to everyone involved.

This is very well deserved. The garden looks amazing and it is wonderful to see the sense of responsibility for this shared community space.

We now also have gardening club twice a week during lunch break and a quiet garden session for well-being.

Our first harvest!

Jack upcycled wooden pallets to create this amazing multi-level planter.

Big Thanks to Englefield Garden Centre for their generous donations towards our garden!
